PEMKO, an ASSA ABLOY Group company, has announced that over 100 of its gasketing products have achieved GREENGUARD Gold Certification. Products with GREENGUARD Gold Certification have been tested for a number of harmful chemicals and have low total volatile organic compound (VOC) emissions to ensure they are safer and healthier for indoor environments, especially schools and healthcare facilities. The certification aids building and design teams to meet and, in certain cases, exceed emissions criteria in various green building rating programs, such as LEED® and The Collaborative for High Performance Schools (CHPS).

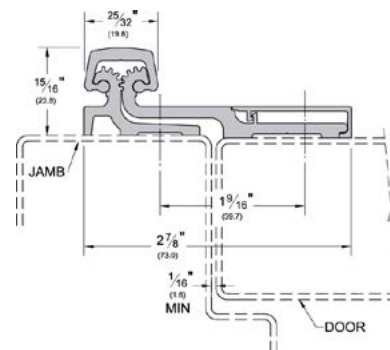

Commercial Thresholds

Perimeter Gasketing

Brush Gasketing

Automatic Door Bottoms

Full Surface Continuous Hinges
